## EDUCATION

### Computer Science

📅 2018 – 2021

I have studied computer science at the faculty of computers and information at Menoufiya university which provided me with some outstanding and technical skills. I consider myself equipped with most of web development skills, but I know I still need to learn a lot more.

### Web Development

📅 2019 – 2021

During my learning journey, I didn't take any paid courses or diplomas. I just relied on myself to search, learn, discover mistakes, and solve them, which gave me many experiences and different skills.

## EXPERIENCES

### Certifications

I have been awarded a lot of certifications from learning organizations such as ITI, Udemy, Udacity, Coursera. There is a project after every course which allows me to take the certification, So I increased my experiences while learning these courses.

Some of my certifications:

- [ITI - Open Source Training](#)
- [Udacity - Web Challenger Track](#)
- [Udacity - Web Professional Track](#)
- [Coursera - Git & Github](#)

## TECHNOLOGIES

### Front-End

<u>HTML</u>	<u>CSS</u>	<u>JavaScript</u>
<u>jQuery</u>	<u>Bootstrap</u>	<u>SCSS</u>
<u>Pug JS</u>	<u>React JS</u>	

### Back-End

<u>PHP</u>	<u>MySQL</u>
------------	--------------

### ★ Skills

<u>Git &amp; Github</u>	<u>Gulp JS</u>
<u>Command-Line</u>	<u>Linux OS</u>

## WHAT I'M PROUD OF

### Ability To Learn

I always like to learn and explore everything new in the world of web technologies.

### Focus & Persistence

Despite any obstacles, I keep focusing on my goals to achieve them.

### Search

If I don't have experience with software or skill, I am doing all the research to study it.

## Projects

Here are best of my projects, which I coded while my learning journey:

- [Development Company Landing Page](#)
- [Photos & Videos Stock Landing Page](#)
- [Gaming Reviews Website Website](#)
- [Kids School Website](#)
- [PDF Books Download Website](#)
- [Personal Blog Website](#)
- [To-Do List Application](#)
- [Multi Choice Quiz Application](#)
- [Bookmarks Application](#)
- [Weather Application](#)

## Projects Reference

Since I learned a lot of technologies and applied several projects with these technologies, I realized that it is confusing to explore my projects, so I decided to make a reference markdown file which I can introduce my projects in an ordered way that enable you to explore my projects and track my progress easily.

Explore all of my projects from [Here](#).

## Work Experience

### Full-Stack Web Developer at Freelancer

 2020 – Present

I'm working on different project types as a Full-Stack web developer at freelancing platforms

### Front-End Developer at Al Mobarmeg

 Apr 2020 – Oct 2020

6 months of working with a great development team which give me more experience while working on projects with back-end developers and dealing with API
