EDUCATION

Computer Science

📅 2017 – 2021

I'm a computer science student at the faculty of computers and information at Menoufiya University, and it is expected to graduate by the end of 2021 which will give me more time to learn, practice, and increase my experiences in web development.

Web Development

📅 2019 – 2021

During my learning journey, I didn't take any paid courses or diplomas. I just relied on myself to search, learn, discover mistakes, and solve them, which gave me many experiences and different skills.

EXPERIENCES

Certifications

I have been awarded a lot of certifications from learning organizations such as ITI, Udemy, Udacity, Coursera. There is a project after every course which allows me to take the certification, So I increased my experiences while learning these courses.

Some of my certifications:

- ITI Open Source Training
- Udacity Web Challenger Track
- Udacity Web Professional Track
- Coursera Git & Github

Visit my [Website](#) to explore my certifications.

TECHNOLOGIES

Front-End

HTML	CSS	JavaScript
jQuery	Bootstrap	SASS
Pug JS		

Back-End

PHP	MySQL
-----	-------

★ Skills

Git & Github	Gulp JS
Command-Line	Linux OS

WHAT I'M PROUD OF

Ability To Learn

I always like to learn and explore everything new in the world of web technologies.

Focus & Persistence

Despite any obstacles, I keep focusing on my goals to achieve them.

PROJECTS

Here are best of my projects, which I coded while my learning journey:

- PDF Books Download Website
- Personal Blog Website
- Development Company Website
- Photos & Videos Stock Website
- Gaming Reviews Website
- Kids School Website
- To-Do List Application
- Quiz Application
- Bookmarks Application

Projects Reference

Since I learned a lot of technologies and applied several projects with these technologies, I realized that it is confusing to explore my projects, so I decided to make a reference markdown file which I can introduce my projects in an ordered way that enable you to explore my projects and track my progress easily.

Explore all of my projects from [Here](#).
