EDUCATION

Computer Science

📅 2018 – 2021

I have studied computer science at the faculty of computers and information at Menoufiya university which provided me with some outstanding and technical skills. I consider myself equipped with most of web development skills, but I know I still need to learn a lot more.

Web Development

📅 2019 – 2021

During my learning journey, I didn't take any paid courses or diplomas. I just relied on myself to search, learn, discover mistakes, and solve them, which gave me many experiences and different skills.

EXPERIENCE

Full-Stack Web Developer | Freelancer

📅 2020 – Present

I'm working on different project types as a Full-Stack web developer at freelancing platforms

Front-End Developer | Al Mobarmeg

📅 Apr 2020 – Jun 2020

3 months of working with a great development team which give me more experience while working on real projects and dealing with APIs

TECHNOLOGIES

Front-End

HTML   CSS   JavaScript

jQuery   Bootstrap   SASS

Pug JS   AJAX   JSON

React JS   Redux   Material-UI

Back-End (Basics)

PHP   MySQL

Skills

Git & Github   Gulp JS

Command-Line & Linux OS

PROJECTS

Here are best of my projects, which I coded while my learning journey:

- [Safari Travels Website](#)
- [Gaming Reviews Website Website](#)
- [Kids School Website](#)
- [Personal Blog Website](#)
- [Development Company Landing Page](#)
- [Photos & Videos Stock Landing Page](#)
- [To-Do List Application](#)
- [Multi Choice Quiz Application](#)
- [Bookmarks Application](#)
- [Weather Application](#)
- [Smart Notes Application](#)

Projects Reference

Since I learned a lot of technologies and applied several projects with these technologies, I realized that it is confusing to explore my projects, so I decided to make a reference markdown file which I can introduce my projects in an ordered way that enable you to explore my projects and track my progress easily.

Explore all of my projects from [Here](#).

CERTIFICATIONS

I have been awarded some certifications from learning organizations such as ITI, & Udacity. There is a project after every course which allows me to take the certification, So I increased my experiences while learning these courses.

Some of my certifications:
- [ITI - Open Source Training](#)
- [Udacity - Web Challenger Track](#)
- [Udacity - Web Professional Track](#)

WHAT I'M PROUD OF

Ability To Learn

I always like to learn and explore everything new in the world of web technologies.

Focus & Persistence

Despite any obstacles, I keep focusing on my goals to achieve them.

Search

If I don't have experience with software or skill, I am doing all the research to study it.
