EDUCATION

Computer Science
📅 2017 - 2021

I'm currently in the last year of my university education, and it is expected to graduate by the end of 2021 which will give me more time to learn, and increase my experiences in web development.

Web Development
📅 2019 - 2021

During my learning journey, I didn't take any paid courses or diplomas. I just relied on myself to search, learn, discover mistakes, and solve them, which gave me many experiences and different skills.

EXPERIENCES

Projects
Since I learned a lot of technologies and applied a number of projects with these technologies, I realized that it is confusing to explore my projects, so I decided to make a reference markdown file which I can introduce my projects in an ordered way that enable you to explore my projects and track my progress easily.
Explore my projects from **Here**.

Certifications
I have been awarded many certifications from learning organizations such as ITI, Udemy, Udacity. There is a project after every course which allows me to take the certification, So I definitely increased my experiences while learning these courses.
Visit my **Website** to explore my certifications.

Technologies

🎨 Front-End

HTML   CSS   JavaScript

jQuery   Bootstrap   SASS

Pug JS

🔣 Back-End

PHP   MySQL

⭐ Additional Skills

Git & Github   Gulp JS

Command-Line   Linux OS

Web Design in Adobe XD

WHAT I'M PROUD OF

Ability To Learn
I always like to learn and explore everything about web.

Focus & Persistence
Despite any obstacles, I keep focusing on my goals.
